

V1 Positive Impact Indicators			
Impact Area	Code	Indicators	Change in V2
Biodiversity	BIO 01	Area of Critical Habitat under management for protection	Updated
	BIO 02	Area of on-site Natural Habitat under management for protection	Updated
	BIO 03	Area of avoided conversion of Natural Habitat	Updated
	BIO 04	Area under management for ecological restoration	Updated
	BIO 05	Species Threat Abatement and Recovery (STAR) value of land under management for protection	Updated
	BIO 06	Species Threat Abatement and Recovery (STAR) value of land under management for restoration	Updated
Forests	FOR 01	Forests under management for conservation, restoration or sustainable use	REMOVED
	FOR 02	Natural forest under management for protection	Updated, became FOR 01
	FOR 03	Area under management for forest restoration	Updated, became FOR 02
	FOR 04	Forest under sustainable forest management	Updated, became FOR 03
Livelihoods	LIV 01	Number of participants reporting increased income	remains as LG 01, with changes
	LIV 02	Number and percent of participants reporting increased agricultural yield	Moved to PRO 01 and PRO 02
	LIV 03	Number of people benefiting directly or indirectly from Fund transactions	Tweaked to focus on jobs
	LIV 04	Number of farmers trained in, and technology transferred for, best management practices in sustainable agriculture/forest protection	Moved to PRO 04
Climate Mitigation	CLM 01	GHG emissions mitigated	REMOVED
	CLM 02	GHG sequestered through protection or restoration of native vegetation	Updated, became CMA 01
	CLM 03	GHG emissions avoided due to non-conversion of native vegetation	Updated, became CMA 02
	CLM 04	GHG emissions reduced from changes to on farm practices.	Updated, became CMA 03
Climate Adaptation	CLA 01	Number of people in local communities whose resilience has been improved as a result of project activities	Updated, became CMA 04

V2 Positive Impact Indicators			
Impact Area	Code	Indicator	
Biodiversity	BIO 01	Area of Critical Habitat under management for protection	V2
	BIO 02	Area of on-site Natural Habitat under management for protection	V2
	BIO 03	Area of avoided conversion of natural ecosystems	V2
	BIO 04	Area under management for ecological restoration	V2
	BIO 05	Species Threat Abatement and Recovery (STAR) value of land under management for protection	V2
	BIO 06	Species Threat Abatement and Recovery (STAR) value of land under management for restoration	V2
Forests	FOR 01	Area of natural forest under protection	V2
	FOR 02	Area under management for forest restoration	V2
	FOR 03	Forest under sustainable forest management	V2
Livelihoods and Gender	LG 01	Number of households reporting increased income	V2
	LG 02	Number of people benefitting from increased access to essential services	NEW
	LG 03	Number of jobs created	NEW
	LG 04	Fund transaction meets one or more of the 2X Challenge criteria for gender lens investing	NEW
Climate Action	CMA 01	GHG sequestered through restoration of native vegetation	V2
	CMA 02	GHG emissions avoided due to non-conversion of natural habitat	V2
	CMA 03	GHG emission reduction and sequestration from changes to on farm practices	V2
	CMA 04	Number of people whose resilience has been improved as a result of project activities	V2
	CMA 05	Volume of water storage capacity	NEW
	CMA 06	Number of different crop varieties, and animal breeds, Species Cultivated	NEW
Sustainable Production	PRO 01	Increase in yield on existing production area	NEW
	PRO 02	Agricultural area covered by sustainable production techniques	NEW
	PRO 03	Number of people benefitting from increased access to substantive value chain infrastructure	NEW
	PRO 04	Number of people trained in best management practices in sustainable agriculture and/or forest protection.	NEW
	PRO 05	Soil organic carbon and healthy soil	NEW
	PRO 06	Pesticide use on farm	NEW
